

First, compile the program from the project root using

```
javac -d phase2\bin phase2\src\*.java
```

To run all acceptance tests automatically, execute

```
powershell -NoProfile -ExecutionPolicy Bypass -File phase1\Testcases\scripts\run_all.ps1
```

Compare results against expected outputs with

```
powershell -NoProfile -ExecutionPolicy Bypass -File phase1\Testcases\scripts\compare_all.ps1
```

To run and inspect a single test, use

```
powershell -NoProfile -ExecutionPolicy Bypass -File phase1\Testcases\scripts\run_one.ps1 -TestId  
TC-12
```

All scripts are under phase 1 scripts folder
